

Temi e icone di JQuery UI

Temi (*ThemeRoller*)

<http://jqueryui.com/themeroller/>

Inserimento del tema nella pagina Web

(si riveda la spiegazione nel Capitolo 3, paragrafo 4, pag. 137)

Per esempio, per il tema *Start*:

```
<link rel="stylesheet" href="http://code.jquery.com/ui/1.9.1/themes/  
start/jquery-ui.css" />
```

Per le parole composte si deve usare il trattino, per esempio per il tema *Hot Sneaks*:

```
<link rel="stylesheet" href="http://code.jquery.com/ui/1.9.1/themes/  
hot-sneaks/jquery-ui.css" />
```

Icone

Icone del widget di tipo **button** (si riveda il Progetto 5 del Capitolo 3):

l'icona **primary** è visualizzata alla sinistra e la **secondary** è visualizzata alla destra.

Il valore per le proprietà dell'icona *primary* e *secondary* deve essere un nome di classe, per esempio: **ui-icon-gear** (icona con ingranaggio)

Per usare una sola icona

```
icons: { primary: "ui-icon-locked" }
```

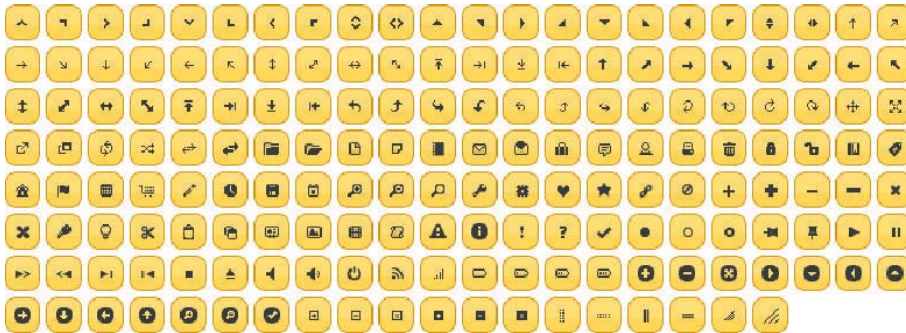

(icona con lucchetto)

Per usare due icone

```
icons: { primary: "ui-icon-gear", secondary: "ui-icon-triangle-1-s" }
```

(icona con ingranaggio e icona con triangolo verso il basso)

La figura presenta l'elenco completo delle icone.
